It looks like my gitbook link still works so I've gone in and edited out the reference to LORY and "kinetic platform." I'm hitting the "submit for review" button so hopefully you can go in and approve.

I scanned the docs we sent to make sure I didn't FU but there's no reference to "kinetic platform" and that wasn't a site I used as a reference. I think this was Alex just adding stuff. He's added whole sections since we submitted the last edits. I'll start going thru them and think we should cut out a lot of the stuff, especially the repetitive stuff. I'm sorry I've been putting off the Gitbook review but will prioritize it since there may be other bombs in there.

This is pretty embarrassing:
